

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

## Introduction

### Key people / dates

<p>Forest Alliance of Nursery Schools</p> 	Designated Safeguarding Lead (DSL), with lead responsibility for filtering and monitoring	Helen Currie
	Deputy Designated Safeguarding Leads / DSL Team Members	Lindsay Read, Pat English, Naline Sabaroche, Sarah Davies, Rockena Muirhead, Uzma Hanif, Sylvie Nicolaou
	Link governor for safeguarding	Mark Brown
	Curriculum leads with relevance to online safeguarding and their role	Lindsay Read
	Network manager / other technical support	Hasina Rashid/Sean McLean
	Date this policy was reviewed and by whom	17 <sup>th</sup> October 2023
	Date of next review and by whom	Autumn 2024

## What is this policy?

Online safety is an integral part of safeguarding and requires a whole school, cross-curricular approach and collaboration between key school leads. Accordingly, this policy is written in line with 'Keeping Children Safe in Education' 2023 (KCSIE), 'Teaching Online Safety in Schools', statutory RSHE guidance and other statutory documents. It is cross-curricular (with relevance beyond Relationships, Health and Sex Education, Citizenship and Computing) and designed to sit alongside or be integrated into your school's statutory Child Protection & Safeguarding Policy. Any issues and concerns with online safety must always follow the school's safeguarding and child protection procedures. At FANS we follow the Early Years Foundation Stage Curriculum (EYFS).

## Who is it for; when is it reviewed?

This policy should be a living document, subject to full annual review but also amended where necessary during the year in response to developments in the school and local area. The template is updated at least annually and is available alongside AUPs at [safepolicies.lgfl.net](https://safepolicies.lgfl.net) Although many aspects will be informed by legislation and regulations, we will involve staff, governors, pupils and parents in writing and reviewing the policy and make sure the policy makes sense and it is possible to follow it in all respects. This will help ensure all stakeholders understand the rules that are in place and why, and that

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

the policy affects day-to-day practice. Pupils could help to design a version in language their peers understand or help you to audit compliance. Acceptable Use Policies (see appendices) for different stakeholders help with this – ensure these are reviewed alongside this overarching policy. Any changes to this policy should be immediately disseminated to all the above stakeholders.

## Who is in charge of online safety?

KCSIE makes clear that “the designated safeguarding lead should take **lead** responsibility for safeguarding and child protection (including online safety).” The DSL can delegate activities but not the responsibility for this area and whilst subject leads, e.g. for RSHE will plan the curriculum for their area, it is important that this ties into a whole-school approach.

## What are the main online safety risks in 2023/2024?

### Current Online Safeguarding Trends

Although the very young children in our care may not be at direct risk of online bullying now, they will be as they get older, so we ensure that we understand these important issues.

Nationally, some of the latest trends of the past twelve months are outlined below. These should be reflected in this policy and the acceptable use agreements we use, and seen in the context of the 5 Cs (see KCSIE for more details), a whole-school contextual safeguarding approach that incorporates policy and practice for curriculum, safeguarding and technical teams.

We may be updating this policy during the year to reflect any changes resulting from the Online Safety Bill being passed into law.

Self-generative artificial intelligence has been a significant change, with students having often unfettered access to tools that generate text and images at home or in school. These tools not only represent a challenge in terms of accuracy when young people are genuinely looking for information, but also in terms of plagiarism for teachers and above all safety: none of the mainstream tools have end-user safety settings, most have an age limit of 13 or even 18 and in spite of basic rude words not delivering results, will easily produce inappropriate material. Schools not only need to tackle this in terms of what comes into school but also educating young people and their parents on use of these tools in the home.

The continued cost-of-living crisis has meant that children have spent more time online and therefore exposed to all manner of online harms as families have had to cut back on leisure activities and the public provision of free activities for young people has reduced further.

Against this background, the Ofcom ‘Children and parents: media use and attitudes report 2023’ has shown that YouTube remains the most used site or app among all under 18s and the reach of WhatsApp, TikTok and Snapchat increased yet further. As a school we recognise that many of our children and young people are on these apps regardless of age limits, which are often misunderstood or ignored. We

# The Forest Alliance of Nursery Schools Online

## Safety Policy - 2023/4

therefore remember to remind them about best practice while remembering the reality for most of our students is quite different.

This is striking when you consider that 20% of 3-4 year olds have access to their OWN mobile phone (let alone shared devices), rising to over 90 percent by the end of Primary School, and the vast majority have no safety controls or limitations to prevent harm or access to inappropriate material. At the same time, even 3 to 6 year olds are being tricked into 'self-generated' sexual content (Internet Watch Foundation Annual Report) while considered to be safely using devices in the home and the 7-10 year old age group is the fastest growing for this form of child sexual abuse material, up 60 percent within 12 months to represent over 60,000 cases found (of this same kind where the abuser is not present).

In the past year, more and more children and young people used apps such as snapchat as their source of news and information, with little attention paid to the veracity of influencers sharing news. The 2023 Revealing-Reality: Anti-social-Media Report highlights that this content is interspersed with highly regular exposure to disturbing, graphic and illegal content such as fights, attacks, sexual acts and weapons. At the same time, the Children's Commissioner revealed the ever younger children are regularly consuming pornography and living out inappropriate behaviour and relationships due to 'learning from' pornography. This has coincided with the rise of misogynistic influencers such as Andrew Tate, which had a significant influence on many young boys over the past year which schools have had to counter.

From the many schools that LGfL spoke to over the past year, there was a marked increase in the number of schools having issues with fights being filmed and shared, a disturbing increase in the cases of self-harm and sexual abuse being coerced with threats of violence (many even in primary schools).

There has been a significant increase in the number of fake profiles causing issues in schools, both for schools – where the school logo and/or name have been used to share inappropriate content about students and also spread defamatory allegations about staff, and also for students, including where these are used to bully others (sometimes even pretending to be one student to bully a second student).

As we have such young children in our schools and follow the Statutory Guidance for Early Years and use Development Matters as our curriculum guidance, we ensure that we understand these important issues that will affect our children as they gain greater access to social media and technology. Our main concerns are that young children may be left alone on YouTube or see older siblings accessing material that is inappropriate.

### How will this policy be communicated?

This policy can only impact upon practice if it is a (regularly updated) living document. It must be accessible to and understood by all stakeholders. It will be communicated in the following ways:

- Posted on the school website
- Part of school induction pack for all new staff (including temporary, supply and non-classroom-based staff and those starting mid-year)

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

- Integral to safeguarding updates and training for all staff (especially in September refreshers)
- Clearly reflected in the Acceptable Use Policies (AUPs) for staff, volunteers, contractors, governors, pupils and parents/carers (which must be in accessible language appropriate to these groups), which will be issued to whole school community, on entry to the school, annually and whenever changed, plus displayed in school

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

## Overview

### Aims

This policy aims to promote a whole school approach to online safety by:

- Setting out expectations for all **the Forest Alliance of Nursery Schools** community members' online behaviour, attitudes and activities and use of digital technology (including when devices are offline)
- Helping safeguarding and senior leadership teams to have a better understanding and awareness of all elements of online safeguarding through effective collaboration and communication with technical colleagues (e.g. for filtering and monitoring), curriculum leads (e.g. RSHE) and beyond.
- Helping all stakeholders to recognise that online/digital behaviour standards (including social media activity) must be upheld beyond the confines of the school gates and school day, regardless of device or platform, and that the same standards of behaviour apply online and offline.
- Facilitating the safe, responsible, respectful and positive use of technology to support teaching & learning, increase attainment and prepare children and young people for the risks and opportunities of today's and tomorrow's digital world, to survive and thrive online
- Helping school staff working with children to understand their roles and responsibilities to work safely and responsibly with technology and the online world:
  - for the protection and benefit of the children and young people in their care, and
  - for their own protection, minimising misplaced or malicious allegations and to better understand their own standards and practice
  - for the benefit of the school, supporting the school ethos, aims and objectives, and protecting the reputation of the school and profession
- Establishing clear structures by which online misdemeanours will be treated, and procedures to follow where there are doubts or concerns (with reference to other school policies such as Behaviour Policy or Anti-Bullying Policy)

## Further Help and Support

Internal school channels should always be followed first for reporting and support, as documented in school policy documents, especially in response to incidents, which should be reported in line with your Child Protection & Safeguarding Policy. The DSL will handle referrals to local authority multi-agency safeguarding hubs (MASH) and normally the headteacher will handle referrals to the LA designated officer (LADO). The local authority, academy trust or third-party support organisations you work with may also have advisors to offer general support.

Beyond this, [reporting.lgfl.net](https://reporting.lgfl.net) has a list of curated links to external support and helplines for both pupils and staff, including the Professionals' Online-Safety Helpline from the UK Safer Internet Centre and the NSPCC Report Abuse Helpline for sexual harassment or abuse, as well as hotlines for hate crime,

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

terrorism and fraud which might be useful to share with parents, and anonymous support for children and young people. Training is also available via [safetraining.lgfl.net](https://safetraining.lgfl.net)

## Scope

This policy applies to all members of the **Forest Alliance of Nursery Schools** community (including teaching, supply and support staff, governors, volunteers, contractors, students/pupils, parents/carers, visitors and community users) who have access to our digital technology, networks and systems, whether on-site or remotely, and at any time, or who use technology in their school role.

## Roles and responsibilities

This school is a community, and all members have a duty to behave respectfully online and offline, to use technology for teaching and learning and to prepare for life after school, and to immediately report any concerns or inappropriate behaviour, to protect staff, pupils, families and the reputation of the school. We learn together, make honest mistakes together and support each other in a world that is online and offline at the same time.

Depending on their role, all members of the school community should **read the relevant section in Annex A of this document** that describes individual roles and responsibilities. Please note there is one for All Staff which must be read even by those who have a named role in another section. There are also pupil, governor, etc role descriptions in the annex.

In 2023/2024, it is vital that all members understand their responsibilities and those of others when it comes to filtering and monitoring. All staff have a key role to play in feeding back on potential issues.

## Education and curriculum

It is important that schools establish a carefully sequenced curriculum for online safety that builds on what pupils have already learned and identifies subject content that is appropriate for their stage of development.

As well as teaching about the underpinning knowledge and behaviours that can help pupils navigate the online world safely and confidently regardless of the device, platform or app, [Teaching Online Safety in Schools](#) recommends embedding teaching about online safety and harms through a whole school approach and provides an understanding of these risks to help tailor teaching and support to the specific needs of pupils, including vulnerable pupils – dedicated training around this with curriculum mapping for RSHE/PSHE and online safety leads is available at [safetraining.lgfl.net](https://safetraining.lgfl.net)

**At FANs we follow the Early Years Statutory Guidance and Development Matters as our curriculum guidance. We have written about using technology appropriately in our Curricular Goals, to support**

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

children to use technology to record their own learning and as a tool to solve problems and be creative. Children only access technology in our Nursery Schools with adult support. They only go online with an adult. They do not communicate online with others at Nursery School.

The following subjects have the clearest online safety links (see the relevant role descriptors above for more information):

- Relationships in accordance with the EYFS curriculum (Personal, Social and Emotional Development)
- Citizenship in accordance with People and communities (Understanding the World)

However, as stated in the role descriptors above, it is the role of all staff to identify opportunities to thread online safety through all school activities, both outside the classroom and within the curriculum, supporting curriculum/stage/subject leads, and making the most of unexpected learning opportunities as they arise (which have a unique value for pupils)

Whenever overseeing the use of technology (devices, the internet, new technology such as augmented reality, etc) in school or setting as homework tasks, all staff should encourage sensible use, monitor what pupils/students are doing and consider potential dangers and the age appropriateness of websites (ask your DSL what appropriate filtering and monitoring policies are in place). “Parents and carers are likely to find it helpful to understand what systems schools use to filter and monitor online use. It will be especially important for parents and carers to be aware of what their children are being asked to do online, including the sites they will be asked to access and be clear who from the school or college (if anyone) their child is going to be interacting with online” (KCSIE 2023).

Equally, all staff should carefully supervise and guide pupils when engaged in learning activities involving online technology (including, extra-curricular, extended school activities if relevant and remote teaching), supporting them with search skills, critical thinking (e.g. disinformation, misinformation and fake news), age appropriate materials and signposting, and legal issues such as copyright and data law. [saferesources.lgfl.net](https://saferesources.lgfl.net) has regularly updated theme-based resources, materials and signposting for teachers and parents.

At the Forest Alliance of Nursery Schools we recognise that online safety and broader digital resilience must be thread throughout the EYFS curriculum and that is why we are working to adopt the cross-curricular framework ‘[Education for a Connected World – 2020 edition](#)’ from UKCIS (the UK Council for Internet Safety).

Annual reviews of curriculum plans / schemes of work (including for SEND pupils) are used as an opportunity to follow this framework more closely in its key areas of Personal Social and Emotional Development, and through use of technology to record play and enhance learning throughout our early years curriculum.

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

## Handling safeguarding concerns and incidents

It is vital that all staff recognise that online safety is a part of safeguarding throughout the Early Years curriculum.

General concerns must be handled in the same way as any other safeguarding concern; safeguarding is often referred to as a jigsaw puzzle, so all stakeholders should err on the side of talking to the online-safety lead / designated safeguarding lead to contribute to the overall picture or highlight what might not yet be a problem.

Support staff will often have a unique insight and opportunity to find out about issues first in the playground, corridors, toilets and other communal areas outside the classroom (particularly relating to bullying and sexual harassment and violence).

School procedures for dealing with online safety will be mostly detailed in the following policies (primarily in the first key document):

- Safeguarding and Child Protection Policy
- Anti-Bullying Policy and Behaviour Policy (including school sanctions), [Getting Along Together](#)
- Acceptable Use Policies
- Data Protection Policy, agreements and other documentation (e.g. privacy statement and consent forms for data sharing, image use etc)
- Cybersecurity

This school commits to take all reasonable precautions to ensure safeguarding pupils online, but recognises that incidents will occur both inside school and outside school (and that those from outside school will continue to impact pupils when they come into school or during extended periods away from school). All members of the school are encouraged to report issues swiftly to allow us to deal with them quickly and sensitively through the school's escalation processes.

Any suspected online risk or infringement should be reported to the online safety lead / designated safeguarding lead on the same day – where clearly urgent, it will be made by the end of the lesson.

Any concern/allegation about staff misuse is always referred directly to the Executive Headteacher, unless the concern is about the Executive Headteacher in which case the complaint is referred to the Chair of Governors and the LADO (Local Authority's Designated Officer). Staff may also use the NSPCC Whistleblowing Helpline, displayed on posters in the schools and included in staff Safeguarding cards.

The school will actively seek support from other agencies as needed (i.e. the local authority, LGfL, UK Safer Internet Centre's Professionals' Online Safety Helpline (POSH), NCA CEOP, Prevent Officer, Police, IWF and Harmful Sexual Behaviour Support Service). The DfE guidance [Behaviour in Schools, advice for headteachers and school staff](#) September 2022 provides advice and related legal duties including support for pupils and powers of staff when responding to incidents – see pages 32-34 for guidance on child on child sexual violence and harassment, behaviour incidents online and mobile phones.

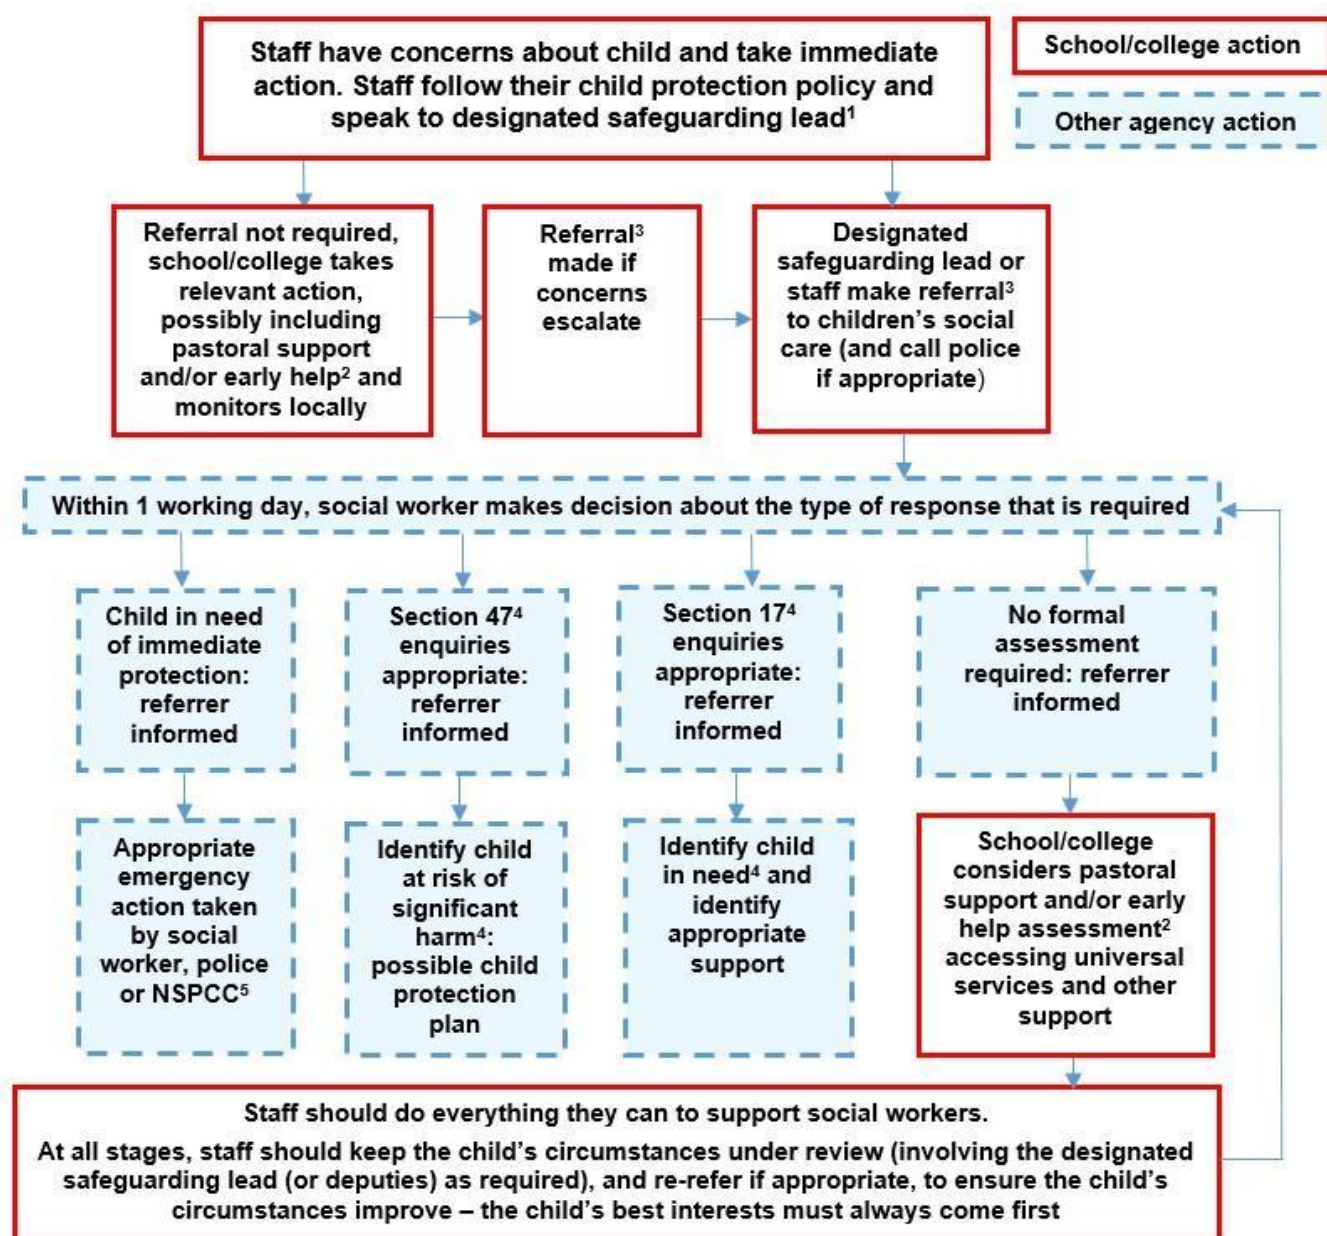

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

We will inform parents/carers of online-safety incidents involving their children, and the Police where staff or pupils engage in or are subject to behaviour which we consider is particularly concerning or breaks the law (particular procedures are in place for sexting and upskirting; see section below).

The school should evaluate whether reporting procedures are adequate for any future closures/lockdowns/isolation etc and make alternative provisions in advance where these might be needed.

## Actions where there are concerns about a child

The following flow chart (it cannot be edited) is taken from page 22 of Keeping Children Safe in Education 2022 as the key education safeguarding document. As outlined previously, online safety concerns are no different to any other safeguarding concern.

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

## Sexting – sharing nudes and semi-nudes

FANS recognise that this is unlikely to occur with 2-to-4-year-olds, however as part of our ongoing safeguarding training we understand these issues as our part in a wider society and that children of any age are subject to abuse.

All schools (regardless of phase) should refer to the UK Council for Internet Safety (UKCIS) guidance on sexting - now referred to as [Sharing nudes and semi-nudes: advice for education settings](#) to avoid unnecessary criminalisation of children. NB - where one of the parties is over 18, this is no longer sexting but child sexual abuse.

There is a one-page overview called [Sharing nudes and semi-nudes: how to respond to an incident](#) for all staff (not just classroom-based staff) to read, in recognition of the fact that it is mostly someone other than the designated safeguarding lead (DSL) or online safety lead to first become aware of an incident, and it is vital that the correct steps are taken. Staff other than the DSL must not attempt to view, share or delete the image or ask anyone else to do so, but to go straight to the DSL.

The school DSL will in turn use the full guidance document, [Sharing nudes and semi-nudes – advice for educational settings](#) to decide next steps and whether other agencies need to be involved.

### \*Consider the 5 points for immediate referral at initial review:

1. The incident involves an adult
2. There is reason to believe that a child or young person has been coerced, blackmailed or groomed, or there are concerns about their capacity to consent (for example, owing to special educational needs)
3. What you know about the images or videos suggests the content depicts sexual acts which are unusual for the young person's developmental stage, or are violent
4. The images involves sexual acts and any pupil in the images or videos is under 13
5. You have reason to believe a child or young person is at immediate risk of harm owing to the sharing of nudes and semi-nudes, for example, they are presenting as suicidal or self-harming

It is important that everyone understands that whilst sexting is illegal, pupils/students can come and talk to members of staff if they have made a mistake or had a problem in this area.

# The Forest Alliance of Nursery Schools Online

## Safety Policy - 2023/4

The documents referenced above and materials to support teaching about sexting can be found at [sexting.lgfl.net](https://sexting.lgfl.net)

### Upskirting

It is important that everyone understands that upskirting (taking a photo of someone under their clothing, not necessarily a skirt) is now a criminal offence and constitutes a form of sexual harassment as highlighted in Keeping Children Safe in Education. As with other forms of child on child abuse pupils/students can come and talk to members of staff if they have made a mistake or had a problem in this area.

### Bullying

Online bullying, including incidents that take place outside school or from home should be treated like any other form of bullying and the school behaviour policy, [Getting Along Together](#), should be followed for online bullying, which may also be referred to as cyberbullying, including issues arising from banter.

It is important to be aware that in the past 12 months there has been an increase in anecdotal reports of fights being filmed and fake profiles being used to bully children in the name of others. When considering bullying, staff will be reminded of these issues.

Materials to support teaching about bullying and useful Department for Education guidance and case studies are at [bullying.lgfl.net](https://bullying.lgfl.net)

### Child-on-child sexual violence and sexual harassment

Part 5 of Keeping Children Safe in Education covers 'Child-on-child sexual violence and sexual harassment' and it would be useful for all staff to be aware of many aspects outlined there to support a whole-school response; case studies are also helpful for training.

Any incident of sexual harassment or violence (online or offline) should be reported to the DSL who will follow the full guidance. Staff should work to foster a zero-tolerance culture and maintain an attitude of 'it could happen here'. The guidance stresses that schools must take all forms of sexual violence and harassment seriously, explaining how it exists on a continuum and that behaviours incorrectly viewed as 'low level' are treated seriously and not allowed to perpetuate. The document makes specific reference to behaviours such as bra-strap flicking and the careless use of language.

In the online environment, the recent proliferation of misogynistic content is particularly relevant when it comes to considering reasons for and how to combat this kind of behaviour.

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

## Misuse of school technology (devices, systems, networks or platforms)

Clear and well communicated rules and procedures are essential to govern pupil and adult use of school networks, connections, internet connectivity and devices, cloud platforms and social media (both when on school site and outside of school).

These are defined in the relevant [Acceptable Use Policy](#) as well as in this document, for example in the sections relating to the professional and personal use of school platforms/networks/clouds, devices and other technology, as well as to BYOD (bring your own device) policy.

Where pupils contravene these rules, the school behaviour policy will be applied; where staff contravene these rules, action will be taken as outlined in the staff code of conduct.

It will be necessary to reinforce these as usual at the beginning of any school year but also to remind pupils that **the same applies for any home learning** that may take place in future periods of absence/closure/quarantine etc.

Further to these steps, the school reserves the right to withdraw – temporarily or permanently – any or all access to such technology, or the right to bring devices onto school property.

The new responsibilities for filtering and monitoring, led by the DSL and following the new DfE standards, may mean that more such incidents will be discovered in the coming year but the school will do its best to remind pupils and staff of this increased scrutiny at the start of the year.

## Social media incidents

See the social media section later in this document for rules and expectations of behaviour for children and adults in the **Forest Alliance of Nursery Schools** community. These are also governed by school Acceptable Use Policies and the school social media policy.

Breaches will be dealt with in line with the school behaviour policy (for pupils) or code of conduct (for staff).

Further to this, where an incident relates to an inappropriate, upsetting, violent or abusive social media post by a member of the school community, **the Forest Alliance of Nursery Schools** will request that the post be deleted and will expect this to be actioned promptly.

Where an offending post has been made by a third party, the school may report it to the platform it is hosted on, and may contact the Professionals' Online Safety Helpline, POSH, (run by the UK Safer Internet Centre) for support or help to accelerate this process.

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

## Data protection and cybersecurity

All pupils, staff, governors, volunteers, contractors and parents are bound by the school's data protection and cybersecurity policy which can be found [on our website](#). It is important to remember that there is a close relationship between both data protection and cybersecurity and a school's ability to effectively safeguard children. Schools are reminded of this in KCSIE which also refers to the DfE Standards of Cybersecurity for the first time in 2023.

Schools should remember that data protection does not prevent, or limit, the sharing of information for the purposes of keeping children safe. As outlined in *Data protection in schools*, 2023, "It's not usually necessary to ask for consent to share personal information for the purposes of safeguarding a child." And in KCSIE 2023, "The Data Protection Act 2018 and UK GDPR do not prevent the sharing of information for the purposes of keeping children safe. Fears about sharing information must not be allowed to stand in the way of the need to safeguard and promote the welfare and protect the safety of children."

## Appropriate filtering and monitoring

Keeping Children Safe in Education has long asked schools to ensure "appropriate" webfiltering and monitoring systems which keep children safe online but do not "overblock".

Since KCSIE 2023, in recognition of the importance of these systems to keeping children safe, the designated safeguarding lead now has lead responsibility for filtering and monitoring (see page 1 for the DSL name and the named governor with responsibility for filtering and monitoring).

Schools are also asked to follow the new DfE filtering and monitoring standards, which require them to:

- identify and assign roles and responsibilities to manage filtering and monitoring systems
- review filtering and monitoring provision at least annually
- block harmful and inappropriate content without unreasonably impacting teaching and learning
- have effective monitoring strategies in place that meet their safeguarding needs

As schools get to grips with these new standards, the challenge for DSLs and SLT is to better understand, review and drive the rationale behind decisions in this area. Tech teams and safeguarding teams will need to work much more closely together for this to be possible and technicians will be charged to carry out regular checks and feed back to DSL teams.

ALL STAFF need to be aware of the changes and renewed emphasis and play their part in feeding back about areas of concern, potential for students to bypass systems and any potential overblocking. They can submit concerns at any point [either in person by talking to Hasina Rashid, or by emailing her on Hasina.rashid@fans.waltham.sch.uk](#) and will be asked for feedback at the time of the regular checks which will now take place.

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

Staff will be reminded of the systems in place and their responsibilities at induction and start of year safeguarding as well as via AUPs and regular training reminders in the light of the annual review and regular checks that will be carried out.

It is very important that schools understand the difference between filtering and monitoring, the meaning of overblocking and other terms, as well as how to get the best out of systems. There are guidance videos and flyers to help with this at <https://safefiltering.lgfl.net> and training is provided for all staff / safeguarding teams / technical teams as appropriate.

At the Forest Alliance of Nursery Schools:

- web filtering is provided by LGfL filtering and Sophos Anti-virus on school site and for school devices used in the home
- changes can be made by Hasina Rashid and Sean McLean of SSC
- overall responsibility is held by the DSL, Helen Currie
- technical support and advice, setup and configuration are from SSC
- regular checks are made half termly by the School Business Manager to ensure filtering is still active and functioning everywhere. This is evidenced by a log of the results of prohibited searches by site and category on different machines to make sure the blocking is working effectively. An example of a blocked site is Netflix. An example of categories that would explore how blocking is working are drugs and sex, as both of have both permitted categories (prescribed drugs and sex education) and blacklisted categories (illegal drugs and explicit sex). These checks are done after notification to SSC and LGfL to ensure no untoward alerts are triggered.
- an annual review is carried out as part of the online safety audit to ensure a whole school approach
- guidance on how the system is 'appropriate' is available at [appropriate.lgfl.net](https://appropriate.lgfl.net) According to the DfE standards, "a variety of monitoring strategies may be required to minimise safeguarding risks on internet connected devices and may include:
  - physically monitoring by staff watching screens of users
  - live supervision by staff on a console with device management software
  - network monitoring using log files of internet traffic and web access
  - individual device monitoring through software or third-party services

At the Forest Alliance of Nursery Schools, our 2 to 4-year olds are unable to access the internet without adult support. All technology (toys, iPads, class computers and the interactive whiteboards) are only ever used together with an adult. Children at FANS do not take this technology home, and are unable to log into any school system on a personal device.

For adults' use:

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

the wireless networks at the school are encrypted. The school devices are protected from outside infections by Sophos Anti-Virus. The school systems will allow devices to connect to the schools' broadband systems for internet access. The password for this access is protected by the school admin staff and provided only to users requesting this password / access once authorised. Further access to the server data, SIMS, FMS and stored documents is protected by the server permissions and is only accessible with a username and password for the required systems. The setup and configuration of the user account is managed by SSC and the Business Manager, Hasina Rashid who authorise all requests with a recognised person who is authorised to authenticate security and permission changes within the site.

## Messaging/commenting systems (incl. email, learning platforms & more)

### Authorised systems

- Staff at this school use the StaffMail email system provided by LGfL for all school emails. They never use a personal/private email account (or other messaging platform) to communicate with children or parents, or communicate with colleagues using a non-school-administered system when relating to school/child data. Staff are permitted to use this email system to communicate with each other, parents and external professional individuals and organisations, but not with under 18s, and use Egress Switch if data needs to be shared with external agencies.
- Staff at this school also use Class Dojo and Teachers2Parents email and text messaging to communicate with parents, Governor Hub to communicate with governors, and WhatsApp to communicate with staff and governors.
- Internally, staff should use the school network, including when working from home when remote access is available via the RAV3 or Freedom2Roam systems.

Any systems above are centrally managed and administered by the school or authorised IT partner (i.e. they can be monitored/audited/viewed centrally; are not private or linked to private accounts). This is for the mutual protection and privacy of all staff, pupils and parents, supporting safeguarding best-practice, protecting children against abuse, staff against potential allegations and in line with UK data protection legislation.

Use of any new platform with communication facilities or any child login or storing school/child data must be approved in advance by the school and centrally managed. This is managed by Hasina Rashid, except for Class Dojo, which is managed by Lindsay Read.

Any unauthorised attempt to use a different system may be a safeguarding concern or disciplinary matter and should be notified to the DSL (if by a child) or to the Headteacher (if by a staff member).

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

Where devices have multiple accounts for the same app, mistakes can happen, such as an email being sent from or data being uploaded to the wrong account. If this a private account is used for communication or to store data by mistake, the DSL/Headteacher/DPO (the particular circumstances of the incident will determine whose remit this is) should be informed immediately.

## Behaviour / usage principles

- More detail for all the points below are given in the [Social media](#) section of this policy as well as the school's acceptable use agreements, behaviour policy and staff code of conduct.
- Appropriate behaviour is expected at all times, and the system should not be used to send inappropriate materials or language which is or could be construed as bullying, aggressive, rude, insulting, illegal or otherwise inappropriate, or which (for staff) might bring the school into disrepute or compromise the professionalism of staff.
- Data protection principles will be followed at all times when it comes to all school communications, in line with the school [Data Protection Policy](#) and only using the authorised systems mentioned above.
- Pupils and staff are not allowed to use the email system for personal use and should be aware that all use is monitored, their emails may be read and the same rules of appropriate behaviour apply at all times. Emails using inappropriate language, images, malware or to adult sites may be blocked and not arrive at their intended destination (and will be dealt with according to the appropriate policy and procedure).

## Online storage or learning platforms

All the principles outlined above also apply to any system to which you log in online to conduct school business, whether it is to simply store files or data (an online 'drive') or collaborate, learn, teach, etc.

For all these, it is important to consider data protection and cybersecurity before adopting such a platform or service and at all times when using it. [The Forest Alliance of Nursery Schools](#) has a clear cybersecurity and [data protection policy](#) which staff, governors and volunteers must follow at all times.

## School website

The school website is a key public-facing information portal for the school community (both existing and prospective stakeholders) with a key reputational value. The Headteacher/Principal and Governors have delegated the day-to-day responsibility of updating the content of the website and ensuring compliance with DfE stipulations to [Alison Emmett](#).

The site is managed by / hosted by [Juniper Education](#).

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

Where staff submit information for the website, they are asked to remember that schools have the same duty as any person or organisation to respect and uphold copyright law – schools have been fined thousands of pounds for copyright breaches. Sources must always be credited and material only used with permission. There are many open-access libraries of public-domain images/sounds etc that can be used. Finding something on Google or YouTube does not mean that copyright has been respected. If in doubt, check with **Hasina Rashid**.

## Digital images and video

When a pupil/student joins the school, parents/carers are asked if they give consent for their child's image to be captured in photographs or videos, for what purpose (beyond internal assessment, which does not require express consent) and for how long. Parents answer as follows:

- For their the child's learning record, which contains photos taken of them as a record of their education, being stored in a place where other families could see it.
- For displays around the school and on their name card
- For photographs and videos that include their child being shared on the password-protected learning platform, Class Dojo.
- Understand that the photos and videos they see on Class Dojo are accessible only to families from our school, and agree not share them.
- I give permission for my child to have photos/videos taken by a photographer engaged by the school and for these images and the photos taken by school staff to be used in the school prospectus, on the school website, and on leaflets and posters advertising activities run by school.
- Understand that they can request to see images taken at any time, and will do so in writing.
- Confirm that they have discussed this with their child, that the child is happy to be photographed, and that if at any time should they refuse or become upset, no photographs will be taken.

A list of the children whose parents have not consented to any of the above is displayed in the staffroom at each school. The record of responses is held on the 'children on roll' spreadsheets for each school.

Any pupils shown in public facing materials are never identified with more than first name, and photo file names/tags do not include full names to avoid accidentally sharing them.

All staff are governed by their contract of employment and the school's Acceptable Use Policy, which covers the use of mobile phones/personal equipment for taking pictures of pupils, and where these are stored. At **the Forest Alliance of Nursery Schools**, no member of staff will ever use their personal phone to capture photos or videos of pupils.

Photos are stored **on the school network or on an external hard drive that is kept in a locked cabinet at Church Hill** in line with the retention schedule of the school Data Protection Policy.

Staff and parents are reminded annually about the importance of not sharing without permission, due to reasons of child protection (e.g. looked-after children often have restrictions for their own protection),

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

data protection, religious or cultural reasons, or simply for reasons of personal privacy. Further detail on this subject and a sample letter to parents for taking photos or videos at school events can be found at [parentfilming.lgfl.net](https://parentfilming.lgfl.net)

We encourage young people to think about their online reputation and digital footprint, so we should be good adult role models by not oversharing (or providing embarrassment in later life – and it is not for us to judge what is embarrassing or not).

As we work with very young children we follow the EYFS curriculum in regard to programmable toys, using a simple computer program and choosing which technology is best to record images or videos. We do not cover KS1 curriculum for technology or computing.

## Social media

### Our SM presence

The Forest Alliance of Nursery Schools works on the principle that if we don't manage our social media reputation, someone else will.

Online Reputation Management (ORM) is about understanding and managing our digital footprint (everything that can be seen or read about the school online). Few parents will apply for a school place without first Googling the school, and the Ofsted pre-inspection check includes monitoring what is being said online.

Negative coverage almost always causes some level of disruption. Up to half of all cases dealt with by the Professionals Online Safety Helpline (POSH: [helpline@saferinternet.org.uk](mailto:helpline@saferinternet.org.uk)) involve schools' (and staff members') online reputation.

Accordingly, we manage and monitor our social media footprint carefully to know what is being said about the school and to respond to criticism and praise in a fair, responsible manner.

Alison Emmett is responsible for managing our Facebook and instagram accounts and other social media accounts and checking our Wikipedia and Google reviews and other mentions online.

### Staff, pupils' and parents' SM presence

Social media (including all apps, sites and games that allow sharing and interaction between users) is a fact of modern life, and as a school, we accept that many parents, staff and pupils will use it. However, as stated in the acceptable use policies which all members of the school community sign, we expect everybody to behave in a positive manner, engaging respectfully with the school and each other on social media, in the same way as they would face to face.

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

This positive behaviour can be summarised as not making any posts which are or could be construed as bullying, aggressive, rude, insulting, illegal or otherwise inappropriate, or which might bring the school or (particularly for staff) teaching profession into disrepute. This applies both to public pages and to private posts, e.g. parent chats, pages or groups.

If parents have a concern about the school, we would urge them to contact us directly and in private to resolve the matter. If an issue cannot be resolved in this way, the school complaints procedure [the school complaints procedure](#) should be followed. Sharing complaints on social media is unlikely to help resolve the matter, but can cause upset to staff, pupils and parents, also undermining staff morale and the reputation of the school (which is important for the pupils we serve).

Many social media platforms have a minimum age of 13 (note that WhatsApp is 16+). We ask parents to respect age ratings on social media platforms wherever possible and not encourage or condone underage use. It is worth noting that Online Harms regulation is likely to require more stringent age verification measures over the coming years.

However, the school has to strike a difficult balance of not encouraging underage use at the same time as needing to acknowledge reality in order to best help our pupils/students to avoid or cope with issues if they arise. **As our technology teaching centres around programmable toys, recording using technology and simple compute programs we do not teach about social media directly as we follow EYFS guidance, however,** children will often learn most from the models of behaviour they see and experience, which will often be from adults.

Parents can best support this by talking to their children about the apps, sites and games they use (you don't need to know them – ask your child to explain it to you), with whom, for how long, and when (late at night / in bedrooms is not helpful for a good night's sleep and productive teaching and learning at school the next day). You may wish to refer to the [Digital Family Agreement](#) to help establish shared expectations and the [Top Tips for Parents](#) poster along with relevant items and support available from [parentsafe.lgfl.net](https://parentsafe.lgfl.net) and introduce the [Children's Commission Digital 5 A Day](#).

Although the school has an official Facebook / Instagram account and will respond to general enquiries about the school, it asks parents/carers not to use these channels, especially not to communicate about their children.

Email is the official electronic communication channel between parents and the school. **Parents and practitioners can also use Class Dojo to communicate about their child's home learning. Parents can upload photos of their child onto their individual profile. This can then be shared with all families if we have permission from the child's parent. The content of Class Dojo is monitored by Helen Currie and Lindsay Read. Practitioners uploading videos of themselves send them to Lindsay or Helen first before they are uploaded.** Social media, including chat apps such as WhatsApp, are not appropriate for **communication between parents and the school.**

Pupils/students are not allowed\* to be 'friends' with or make a friend request\*\* to any staff, governors, volunteers and contractors or otherwise communicate via social media.

# The Forest Alliance of Nursery Schools Online

## Safety Policy - 2023/4

Pupils/students are discouraged from 'following' staff, governor, volunteer or contractor public accounts (e.g. following a staff member with a public Instagram account) as laid out in the AUPs. However, we accept that this can be hard to control (but this highlights the need for staff to remain professional in their private lives). In the reverse situation, however, staff must not follow such public student accounts or make any social media content with any parents or children of FANS.

\* Exceptions may be made, e.g. for pre-existing family links, but these must be approved by the Headteacher/Principal, and should be declared upon entry of the pupil or staff member to the school).

\*\* Any attempt to do so may be a safeguarding concern or disciplinary matter and should be notified to the DSL (if by a child) or to the Headteacher (if by a staff member).

Staff are reminded that they are obliged not to bring the school or profession into disrepute and the easiest way to avoid this is to have the strictest privacy settings and avoid inappropriate sharing and oversharing online. They should never discuss the school or its stakeholders on social media and be careful that their personal opinions might not be attributed to the school, trust or local authority, bringing the school into disrepute.

The serious consequences of inappropriate behaviour on social media are underlined by the fact that there has been a significant number of Prohibition Orders issued by the Teacher Regulation Agency to teaching staff that involved misuse of social media/technology.

All members of the school community are reminded that particularly in the context of social media, it is important to comply with the school policy on Digital images and video, and permission is sought before uploading photographs, videos or any other information about other people.

The statements of the [Acceptable Use Policies \(AUPs\)](#) which all members of the school community have signed are also relevant to social media activity, as is the school's [Data Protection Policy](#).

### Device usage

AUPs remind those with access to school devices about rules on the misuse of school technology – devices used at home should be used just like if they were in full view of a teacher or colleague. Please read the following in conjunction with those AUPs and the sections of this document which impact upon device usage, e.g. copyright, data protection, social media, misuse of technology, and digital images and video.

### Personal devices including wearable technology and bring your own device (BYOD)

- Pupils/students are **not** allowed to bring mobile phones in. Important messages and phone calls to or from parents can be made at the school office.
- All staff who work directly with children should leave their mobile phones switched off in one of the private staff areas during sessions and during school hours only use them in those private

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

staff areas when they are on a break. See also the 'Digital images and video' section of this document and the school data protection cybersecurity policies. Child/staff data should never be downloaded onto a private phone. Furthermore, voice recordings of children or staff is strictly prohibited except as part of our technology teaching. We do not record meetings at FANS. Doing so without permission could lead to disciplinary procedures. If we record the children as part of our technology teaching we will always talk to them about why and how we are recording and if they don't want to partake they don't have to. This is for learning purposes only and will not be added to public forums without parental permission first. If a staff member is expecting an important personal call when teaching or otherwise on duty, they may leave their phone with the school office to answer on their behalf or ask for the message to be left with the school office.

- **Volunteers, contractors, governors** should leave their phones in their pockets and turned off. Under no circumstances should they be used in the presence of children or to take photographs or videos. If this is required (e.g. for contractors to take photos of equipment or buildings), permission of the headteacher should be sought (the headteacher may choose to delegate this) and this should be done in the presence of a member staff.
- **Parents** are asked to leave their phones in their pockets and turned off when they are on site. They should ask permission before taking any photos, e.g. of displays in corridors or classrooms, and avoid capturing other children. When at school events, please refer to the Digital images and video section of this document on page 20. [parentfilming.lgfl.net](https://parentfilming.lgfl.net) may provide further useful guidance. Parents are asked not to call pupils on their mobile phones during the school day; urgent messages can be passed via the school office.

## Use of school devices

Staff and pupils are expected to follow the terms of the school acceptable use policies for appropriate use and behaviour when on school devices, whether on site or at home.

School devices are not to be used in any way which contravenes AUPs, behaviour policy / staff code of conduct.

Wifi is accessible to staff and some visitors, agreed on a case by case basis for school-related internet use and limited personal use within the framework of the acceptable use policy. All such use is monitored.

School devices for staff or students are restricted to the apps/software installed by the school, whether for use at home or school, and may be used for learning and reasonable as well as appropriate personal use.

All and any usage of devices and/or systems and platforms may be tracked.

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

## **Trips / events away from school**

For school trips/events away from school, teachers will be issued a school duty phone and this number used for any authorised or emergency communications with pupils/students and parents. Any deviation from this policy (e.g. by mistake or because the school phone will not work) will be notified immediately to the Headteacher. Teachers using their personal phone in an emergency will ensure that the number is hidden to avoid a parent or student accessing a teacher's private phone number.

## **Searching and confiscation**

In line with the DfE guidance '[Searching, screening and confiscation: advice for schools](#)', the Headteacher/Principal and staff authorised by them have a statutory power to search pupils/property on school premises. This includes the content of mobile phones and other devices, for example as a result of a reasonable suspicion that a device contains illegal or undesirable material, including but not exclusive to sexual images, pornography, violence or bullying. However as we work with very young children this is not deemed necessary, so we do not have a search procedure.

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

## Appendix – Roles

Please read the relevant roles & responsibilities section from the following pages.

All school staff must read the “All Staff” section as well as any other relevant to specialist roles

Roles:

- All Staff
- Headteacher/Principal
- Designated Safeguarding Lead
- Governing Body, led by Online Safety / Safeguarding Link Governor
- PSHE / RSHE Lead/s
- Computing Lead
- Subject / aspect leaders
- Network Manager/technician
- Data Protection Officer (DPO)
- Volunteers and contractors (including tutor)
- Pupils
- Parents/carers
- External groups including parent associations

## All staff

All staff should sign and follow the staff acceptable use policy in conjunction with this policy, the school’s main [safeguarding policy](#), the [code of conduct/handbook](#) and relevant parts of [Keeping Children Safe in Education](#) to support a whole-school safeguarding approach.

This includes reporting any concerns, no matter how small, to the designated safety lead as named in the AUP, maintaining an awareness of current online safety issues (see the start of this document for issues in 2023) and guidance (such as KCSIE), modelling safe, responsible and professional behaviours in their own use of technology at school and beyond and avoiding scaring, victim-blaming language.

Staff should also be aware of the new DfE standards and relevant changes to filtering and monitoring and play their part in feeding back about overblocking, gaps in provision or pupils bypassing protections.

## Executive Headteacher– Helen Currie

**Key responsibilities:**

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

- Foster a culture of safeguarding where online-safety is fully integrated into whole-school safeguarding
- Oversee and support the activities of the designated safeguarding lead team and ensure they work technical colleagues to complete an online safety audit in line with KCSIE (including technology in use in the school)
- Undertake training in offline and online safeguarding, in accordance with statutory guidance and Local Safeguarding Children Partnership support and guidance
- Ensure ALL staff undergo safeguarding training (including online-safety) at induction and with regular updates and that they agree and adhere to policies and procedures
- Ensure ALL governors and trustees undergo safeguarding and child protection training and updates (including online-safety) to provide strategic challenge and oversight into policy and practice and that governors are regularly updated on the nature and effectiveness of the school's arrangements
- Ensure the school implements and makes effective use of appropriate ICT systems and services including school-safe filtering and monitoring, protected email systems and that all technology including remote systems are implemented according to child-safety first principles
- Better understand, review and drive the rationale behind decisions in filtering and monitoring as per the new DfE standards—through regular liaison with technical colleagues and the DSL— in particular understand what is blocked or allowed for whom, when, and how as per KCSIE.
  - In 2023/4 this will involve starting regular checks and annual reviews, upskilling the DSL and appointing a filtering and monitoring governor
- Liaise with the designated safeguarding lead on all online-safety issues which might arise and receive regular updates on school issues and broader policy and practice information
- Support safeguarding leads and technical staff as they review protections for pupils in the home and remote-learning procedures, rules and safeguards
- Take overall responsibility for data management and information security ensuring the school's provision follows best practice in information handling; work with the DPO, DSL and governors to ensure a compliant framework for storing data, but helping to ensure that child protection is always put first and data-protection processes support careful and legal sharing of information
- Understand and make all staff aware of procedures to be followed in the event of a serious online safeguarding incident
- Ensure suitable risk assessments are undertaken so the curriculum meets needs of pupils, including risk of children being radicalised
- Ensure the school website meets statutory requirements

## Designated Safeguarding Lead / Online Safety Lead – Helen Currie

**Key responsibilities** (remember the DSL can delegate certain online-safety duties but not the overall responsibility; this assertion and all quotes below are from Keeping Children Safe in Education):

- The DSL should “take **lead responsibility** for safeguarding and child protection (**including online safety and understanding the filtering and monitoring** systems and processes in place).

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

- Ensure “An effective whole school approach to online safety as per KCSIE
- In 2023/4 working to take up the new responsibility for filtering and monitoring by working closely with technical colleagues, SLT and the new filtering governor to learn more about this area, better understand, review and drive the rationale behind systems in place and initiate regular checks and annual reviews, including support for devices in the home.
- Where online-safety duties are delegated and in areas of the curriculum where the DSL is not directly responsible but which cover areas of online safety (e.g. RSHE), ensure there is regular review and open communication and that the DSL’s clear overarching responsibility for online safety is not compromised or messaging to pupils confused
- Ensure ALL staff and supply staff undergo safeguarding and child protection training (including online-safety) at induction and that this is regularly updated.
  - In 2023/4 this must include filtering and monitoring and help them to understand their roles
  - all staff must read KCSIE Part 1 and all those working with children also Annex B – translations are available in 13 community languages at [kcsietranslate.lgfl.net](https://kcsietranslate.lgfl.net) (B the condensed Annex A can be provided instead to staff who do not directly work with children if this is better)
  - cascade knowledge of risks and opportunities throughout the organisation
  - [safecpd.lgfl.net](https://safecpd.lgfl.net) has helpful CPD materials including PowerPoints, videos and more
- Ensure that ALL governors and trustees undergo safeguarding and child protection training (including online-safety) at induction to enable them to provide strategic challenge and oversight into policy and practice and that this is regularly updated
- Take day-to-day responsibility for safeguarding issues and be aware of the potential for serious child protection concerns
- Be mindful of using appropriate language and terminology around children when managing concerns, including avoiding victim-blaming language
- Remind staff of safeguarding considerations as part of a review of remote learning procedures and technology, including that the same principles of online-safety and behaviour apply
- Work closely with SLT, staff and technical colleagues to complete an online safety audit (including technology in use in the school)
- Work with the DPO and governors to ensure a compliant framework for storing data, but helping to ensure that child protection is always put first and data-protection processes support careful and legal sharing of information
- Stay up to date with the latest trends in online safeguarding and “undertake Prevent awareness training.” – see [safetraining.lgfl.net](https://safetraining.lgfl.net) and [prevent.lgfl.net](https://prevent.lgfl.net)
- Review and update this policy, other online safety documents (e.g. Acceptable Use Policies) and the strategy on which they are based (in harmony with policies for behaviour, safeguarding, Prevent and others) and submit for review to the governors/trustees.
- Receive regular updates in online-safety issues and legislation, be aware of local and school trends – see [safeblog.lgfl.net](https://safeblog.lgfl.net) for examples or sign up to the [LGfL safeguarding newsletter](https://lgflsafeguardingnewsletters.lgfl.net)

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

- Ensure that online-safety education is embedded across the curriculum in line with the statutory RSHE guidance (e.g. by use of the updated UKCIS framework '[Education for a Connected World – 2020 edition](#)') and beyond, in wider school life
- Promote an awareness of and commitment to online-safety throughout the school community, with a strong focus on parents, including hard-to-reach parents – dedicated resources at [parentsafe.lgfl.net](https://parentsafe.lgfl.net)
- Communicate regularly with SLT and the safeguarding governor/committee to discuss current issues (anonymised), review incident logs and filtering/change control logs and discuss how filtering and monitoring work and have been functioning/helping.
- Ensure all staff are aware of the procedures that need to be followed in the event of an online safety incident, and that these are logged in the same way as any other safeguarding incident.
- Ensure adequate provision for staff to flag issues when not in school and for pupils to disclose issues when off site, especially when in isolation/quarantine, e.g. a [survey to facilitate disclosures](#) and an online form on the school home page about 'something that worrying me' that gets mailed securely to the DSL inbox
- Ensure staff adopt a zero-tolerance, whole school approach to all forms of child-on-child abuse, and don't dismiss it as banter (including bullying).
- Pay particular attention to **online tutors**, both those engaged by the school as part of the DfE scheme who can be asked to sign the contractor AUP, and those hired by parents. (see '[safe online learning at home](#)')

**Governing Body, led by Online Safety / Safeguarding Link Governor – Mark Brown**

## Key responsibilities (quotes are taken from Keeping Children Safe in Education)

- Approve this policy and strategy and subsequently review its effectiveness, e.g. by asking the questions in the helpful document from the UK Council for Child Internet Safety (UKCIS) [Online safety in schools and colleges: Questions from the Governing Board](#)
- Undergo (and signpost all other governors and Trustees to attend) safeguarding and child protection training (including online safety) at induction to provide strategic challenge and into policy and practice, ensuring this is regularly updated
- Ensure that all staff also receive appropriate safeguarding and child protection (including online) training at induction and that this is updated
- Appoint a filtering and monitoring governor to work closely with the DSL on the new filtering and monitoring standards
- Support the school in encouraging parents and the wider community to become engaged in online safety activities
- Have regular strategic reviews with the online-safety coordinator / DSL and incorporate online safety into standing discussions of safeguarding at governor meetings
- Work with the DPO, DSL and headteacher to ensure a compliant framework for storing data, but helping to ensure that child protection is always put first and data-protection processes support careful and legal sharing of information

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

- Check all school staff have read Part 1 of KCSIE; SLT and all working directly with children have read Annex B
- Ensure that all staff undergo safeguarding and child protection training (including online safety and now also reminders about filtering and monitoring)
- “Ensure that children are taught about safeguarding, including online safety [...] as part of providing a broad and balanced curriculum [...] Consider a whole school or college approach to online safety [with] a clear policy on the use of mobile technology.”

## Curriculum Lead – Lindsay Read

### Key responsibilities:

- As listed in the ‘all staff’ section, plus:
- Embed consent, mental wellbeing, healthy relationships and staying safe online as well as raising awareness of the risks and challenges from recent trends in self-generative artificial intelligence, financial extortion and sharing intimate pictures online into the PSHE / Relationships education, relationships and sex education (RSE) and health education curriculum. “This will include being taught what positive, healthy and respectful online relationships look like, the effects of their online actions on others and knowing how to recognise and display respectful behaviour online. Throughout these subjects, teachers will address online safety and appropriate behaviour in an age appropriate way that is relevant to their pupils’ lives.”
- Focus on the underpinning knowledge and behaviours outlined in [Teaching Online Safety in Schools](#) in an age appropriate way to help pupils to navigate the online world safely and confidently regardless of their device, platform or app.
- This complements the Early Years curriculum, where children only use technology with adult support and are not left online unattended. If an adult is modelling searching for information, they discuss only doing this with an adult present.
- Work closely with the DSL/OSL and all other staff to ensure an understanding of the issues, approaches and messaging within PSHE / RSHE.
- Note that an RSHE policy should be included on the school website.
- Work closely with the Computing subject leader to avoid overlap but ensure a complementary whole-school approach, and with all other lead staff to embed the same whole-school approach

## Subject / aspect leaders

### Key responsibilities:

- As listed in the ‘all staff’ section, plus:
- Look for opportunities to embed online safety in your subject or aspect, especially as part of the EYFS curriculum (Personal, Social and Emotional Development), and model positive attitudes and approaches to staff and pupils alike

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

- Consider how the UKCIS framework Education for a Connected World and Teaching Online Safety in Schools can be applied in your context
- Work closely with the DSL/OSL and all other staff to ensure an understanding of the issues, approaches and messaging within Computing
- Ensure subject specific action plans also have an online-safety element

## Network Manager/other technical support roles – Sean McLean, SSC

### Key responsibilities:

- As listed in the 'all staff' section, plus:
- Collaborate regularly with the DSL and leadership team to help them make key strategic decisions around the safeguarding elements of technology.
- Note that KCSIE changes expect a great understanding of technology and its role in safeguarding when it comes to filtering and monitoring and in 2023/4 you will be required to support safeguarding teams to understand and manage these systems and carry out regular reviews and annual checks.
- Support DSLs and SLT to carry out an annual online safety audit as now recommended in KCSIE. This should also include a review of technology, including filtering and monitoring systems (what is allowed, blocked and why and how 'over blocking' is avoided as per KCSIE) to support their role as per the new DfE standards, protections for pupils in the home and remote-learning.
- Keep up to date with the school's online safety policy and technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- Work closely with the designated safeguarding lead / online safety lead / data protection officer / LGfL nominated contact / RSHE lead to ensure that school systems and networks reflect school policy and there are no conflicts between educational messages and practice.
- Ensure the above stakeholders understand the consequences of existing services and of any changes to these systems (especially in terms of access to personal and sensitive records / data and to systems such as YouTube mode, web filtering settings, sharing permissions for files on cloud platforms etc
- Maintain up-to-date documentation of the school's online security and technical procedures
- To report online-safety related issues that come to their attention in line with school policy
- Manage the school's systems, networks and devices, according to a strict password policy, with systems in place for detection of misuse and malicious attack, with adequate protection, encryption and backup for data, including disaster recovery plans, and auditable access controls.
- Ensure the data protection policy and cybersecurity policy are up to date, easy to follow and practicable

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

## Marketing & Policy Officer – Alison Emmett

- Monitor the use of school technology, online platforms and social media presence and that any misuse/attempted misuse is identified and reported in line with school policy
- Work with the Headteacher to ensure the school website meets statutory DfE requirements

## Data Protection Officer (DPO) – Maryline Alvis

### Key responsibilities:

- Alongside those of other staff, provide data protection expertise and training and support the DP and cybersecurity policy and compliance with those and legislation and ensure that the policies conform with each other and with this policy.
- Not prevent, or limit, the sharing of information for the purposes of keeping children safe. As outlined in *Data protection in schools, 2023*, “It’s not usually necessary to ask for consent to share personal information for the purposes of safeguarding a child.” And in KCSIE 2023, “The Data Protection Act 2018 and UK GDPR do not prevent the sharing of information for the purposes of keeping children safe. Fears about sharing information must not be allowed to stand in the way of the need to safeguard and promote the welfare and protect the safety of children.”
- Note that retention schedules for safeguarding records may be required to be set as ‘Very long term need (until pupil is aged 25 or older)’. However, some local authorities require record retention until 25 for all pupil records. An example of an LA safeguarding record retention policy can be read at [safepolicies.lgfl.net](https://safepolicies.lgfl.net), but you should check the rules in your area.
- Ensure that all access to safeguarding data is limited as appropriate, and also monitored and audited

## Volunteers and contractors (including tutor)

### Key responsibilities:

- Read, understand, sign and adhere to an acceptable use policy (AUP)
- Report any concerns, no matter how small, to the designated safety lead
- Maintain an awareness of current online safety issues and guidance
- Model safe, responsible and professional behaviours in their own use of technology at school and as part of remote teaching or any online communications
- Note that as per AUP agreement a contractor will never attempt to arrange any meeting, **including tutoring session**, without the full prior knowledge and approval of the school, and will never do so directly with a pupil. The same applies to any private/direct communication with a pupil.

# The Forest Alliance of Nursery Schools Online Safety Policy - 2023/4

## Pupils

### Key responsibilities:

- We only ever use technology (programmable toys, iPads, Cameras, school computers or whiteboards) with adult assistance. We do not have individual logins or user names and cannot access the internet without help.
- We talk about what we watch at home to make sure we are safe.
- Children can message their key person or teacher using Class Dojo with the help of their parents.
- We will tell an adult if we see something we don't like.
- We will only watch YouTube with our mums or dads.
- We will be gentle when using school technology.

## Parents/carers

### Key responsibilities:

- Read, sign and adhere to the school's parental acceptable use policy (AUP) as part of the schools Admissions Form, read the pupil AUP and encourage their children to follow it

## External groups including parent associations

### Key responsibilities:

- Any external individual/organisation will sign an acceptable use policy prior to using technology or the internet within school
- Support the school in promoting online safety and data protection
- Model safe, responsible, respectful and positive behaviours in their own use of technology, including on social media: not sharing other's images or details without permission and refraining from posting negative, threatening or violent comments about others, including the school staff, volunteers, governors, contractors, pupils or other parents/carers
